

GRA 151 – Illustration and Graphics Styles

Utilizing an art style you will be following up with your previous assignment and implementing your actual physical copy of art into photoshop. You will digitally alter your piece to your pleasure (with some guidance) to emulate any style choice that we have reviewed. The assignment will take place over the course of two class periods to show how critique can influence your piece.

This is your opportunity to learn from our digital painting lessons as well, apply what you can to your piece and showcase what you feel works out. We'll also be using it as a chance to teach critique as a whole as it can help develop your work as an artist. You will be graded on the critiques you give to your fellow students so make sure its informative!

___/20 Clean work overriding the traditional aspects from when it was scanned in

___/20 Style is consistent throughout

___/10 Composition

___/20 Solid Critiques for your other students

___/10 That extra 10%
