

Language of Drawing
Innovative Digital Design Program (International Program)
Faculty of Science and Technology
Thammasat University Thailand
Instructor: Saranit Klinklaykun
Semester II/2015

Course Objective

-Students can apply drawing technique, drawing material, and equipment, as well as critical analysis using gathered (how to observe physical objects) or research information before drawing practice.

-Students can understand basic drawing sequences, line drawing, and theoretical frameworks including history of arts.

Couse outline and assignments

Week 1 - Basic 3D space measurement and tool

Week 2 - One point perspective

Week 3 - Two points perspective

Week 4 - Three points perspective

Week 5 – Draw basic shapes in box space part 1

Week 6 – Draw basic shapes in box space part 2

Week 7 - Basic object creation

Week 8 - Mirror basic object creation

Week 9 - Organic object creation

Week 10 - Mirror organic object creation

Week 11 - Prop drawing in 3D space

Week 12 - Car drawing

Week 13 - Plane drawing

Week 14 - Mirror car and plane drawing

Week 15 - Perspective scene drawing
