

Student name: Zackary Valenta, Yang Zhang, Brooke Waddington, Marc-Antoine Desbiens, Calina Franz-Hernandez & Jason Bernhardt

School name: Centre for Digital Media

Program/department: Master of Digital Media

Faculty name: Larry Bafia

Project: Atomic Age: Dog Companion

The BarBees worked with BokBok Labs to enhance the immersive experience of Atomic Age. The team designed and implemented a non-playable dog character (NPC) that contributes to the ecosystem as the “player’s legs,” allowing them to access otherwise unreachable locations.
