

Project: Final Group Animation: 300 POINTS

- Create an animated short film within a group of your peers.
- The story can be anything you want, but it must have a beginning, middle and end.
- Every member must share in the animation.
- As a team, come up with your storyline.
- Figure out who your target audience is.
- Elect a **Team Leader** – someone who is responsible and will keep order
- Develop this animation from its initial preproduction phases (script, character designs, environment layouts, storyboard), its production phases (hand drawn, scanning, stop motion, software, etc...), and finally to its post-production (sound, editing, effects, etc).
- You may use additional motion graphics.
- You may use other software not provided by the school.
- *Do not use any copyrighted material or preexisting action figures/toys.*
- You may use any other materials and types of stop motion animation.
- You may use your own equipment.
- Sound is required.
- If your group decides to have characters, you **MUST** record yourselves acting out the performance.
- You will come to class and **visually** show your current progress to the professor and class everyday.
